# GETTING STARTED

## Battery Removal and Installation

1. Make sure the unit is turned **Off**.
2. Locate the battery cover and use a screwdriver to loosen the screws and open the battery cover.
3. Remove old batteries by pulling up on one side of each battery.
4. Install 3 new LR44 batteries following the diagram inside the battery box.  
(The use of new alkaline batteries is recommended for maximum performance).
5. Replace the battery cover and tighten the screws to secure.

### **WARNING:**

This product contains a button or coin cell battery. A swallowed button or coin cell battery can cause internal chemical burns in as little as two hours and lead to death. Dispose of used batteries immediately. Keep new and used batteries away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

### **BATTERY NOTICE**

- Use three LR44 alkaline button cell batteries only for this toy.
- The button cell batteries used with this product should be kept away from small children who might still put things in their mouths. If the button cell batteries are swallowed, consult a doctor immediately.

- Insert the button cell batteries with the correct polarity.
- Do not use damaged button cell batteries.
- Do not short-circuit the button cell battery terminals.
- Remove exhausted button cell batteries from the product.
- Remove button cell batteries during long periods of non-use.
- Do not dispose of button cell batteries in fire.
- Do not charge non-rechargeable button cell batteries.
- Do not mix old and new batteries.
- Do not mix batteries of different types: alkaline, standard (carbonzinc) or rechargeable.

## **DO NOT USE RECHARGEABLE BATTERIES.**

### **Disposal of batteries and product**

The crossed-out wheeled bin symbols on products and batteries, or on their respective packaging, indicates they must not be disposed of in domestic waste as they contain substances that can be damaging to the environment and human health.

The chemical symbols Hg, Cd or Pb, where marked, indicate that the battery contains more than the specified value of mercury (Hg), cadmium (Cd) or lead (Pb) set out in Battery Directive (2006/66/EC).

The solid bar indicates that the product was placed on the market after 13th August, 2005.

Help protect the environment by disposing of your product or batteries responsibly.
